The News.

The Atlantic Telegraph is working admirably, and several messages have been successfully transmitted from Continent to Continent. Thus we publish in another column the reply of the Lord Mayor of London, to the Message of the Mayor of New York City, dated London yesterday, and which was received in Milwaukee last evening. Truly this is annihilation of time.—The Ocean Telegraph will be open for general business after the first of September.

The steamship *Canada*, with Liverpool dates to the 14th, arrived at Halifax last evening. A brief synopsis of her news will be found in our telegraph columns. Breadstuffs had a declining tendency.

We have later news from the Territory of Utah. The Army was making preparations to go into winter quarters.

A batch of Federal appointments will be found in the telegraph column. T. RUSH SPENCER has been appointed receiver of public monies, at Superior, in this State, in place of DEAN, removed.

Worcester, Mass., and other cities, are going to have a jubilee on the first of September, in honor of the Atlantic cable.

A grand regatta is to take place at Springfield, on the 27th.

The yellow fever is still carrying away hundreds at New Orleans, weekly.

The telegraph reports wheat 1 to 2c lower, in the New York market, yesterday. This, with unfavorable news from other quarters, had a depressing effect upon our wheat market, and prices declined quite materially. Receipts from the country are daily increasing, and business in the produce market is gradually reviving.

The weather continues cool and very pleasant.

FROM LONDON YESTERDAY!

In our Telegraph columns, this morning, will be found a despatch to Mr. C. W. FIELD, of New York, *which left London yesterday*, and accompanies the reply of the Lord Mayor of London, to the Message of Mayor TIEMANN, of New York. This must not only solve all doubts as to the perfect working of the Atlantic Cable, but prove, moreover, that messages can be transmitted without difficulty, and as rapidly as could be wished. Well may England and America rejoice over the consummation of an enterprise in which they have a common interest and a common glory.

From London to Milwaukee in One Day!

The despatch to Mr. FIELD, mentioned in our Telegraph column, left London yesterday morning, and was received at the *Sentinel* office, Milwaukee, yesterday evening. Considering that the two places are over *four thousand* miles apart, by the Telegraph wires, this may be set down as good speed and quite up to the ideas of this "go ahead" age.

AN IMPORTANT CURRENCY MOVEMENT.—It will be perceived from our commercial column, that nearly all the Banks in our State have made arrangements to redeem either at Milwaukee or Madison. This is an arrangement of the very first importance to the business community.—*Wisconsin, of yesterday.*

This is a very serious blunder. No such arrangement has been made by the Banks referred to. The only arrangement as yet perfected by the Banks named in the "commercial column" of the *Wisconsin*, is to "redeem" their *mutilated* bills by the issue of others.

GOV. RANDALL IN THE NORTH-WEST.—The Jackson County *Banner*, has a long article on the subject of Gov. RANDALL's action in the matter of the Land Grant, of which the *gist* may be found in the following paragraph:

> We upheld the Governor in his course; let him "do his duty through the heavens fall," and he will win the approbation of all honest men.

☞ The *Sentinel* leaves the impression in the minds of its readers, that Mr. Tenney's peremptory denial of its authorship, is not satisfactory to us, although we stated yesterday that it was perfectly so.—*Free Democrat of yesterday.*

No such inference can be drawn from our remarks. But we are glad to hear that the *Free Democrat* is satisfied with Mr. TENNEY's denial.

OVERLAND MAIL ROUTE.—Messrs. BUTTERFIELD & Co. will commence on the 15th of September, carrying the overland Pacific mails, and no doubt remains of their prompt and successful execution of the contract by that time. All the necessary means of transportation will be on the route. Messrs. BUTTERFIELD and R. D. CROCKER start in a few days for Fort Smith.

The Grain Trade of Chicago.

The receipts at this city during the last week have embraced 6,486 bbls flour, 190,177 bushels wheat; 589,983 bushels corn; (the greatest amount of corn received in any one week this season,) and 30,058 bus. oats, making 842,653 bus. of grain. The total receipts of the season are now 270,112 bbls flour, 6,248,973 bus. corn, and 1,732,040 bus. oats; making a total of *over fourteen millions of bushels of grain*, namely 14,570,271 bushels.

The receipts at this time last year were 156,000 bbls flour, 3,000,000 bus. wheat, 5,900,000 bus. corn, and 633,000 bus. oats, making a total of 10,313,000 bushels of grain, and showing an increase, in the receipts of this year over those of last year, of 4,267 271 bushels.

The shipments of the last week have been 3,587 bbls flour, 75,106 bus. wheat, and 515,935 bus. corn, (the greatest amount of corn exported in any one week this season,) making 608,976 bushels of grain. The total shipments of the season are now 225,938 bbls flour, 6,195,463 bus wheat, 4,633,582 bus. corn, and 1,192,000 bus. oats, making a total of *over thirteen millions of bushels of grain*, namely, 13,162,024 bushels.

The shipments at this time last year were 59,000 bbls flour, 2,240,000 bus. wheat, 5,050,000 bus corn, and 180,000 bus oats, making 7,915,000 bushels, and showing an increase over the exports of last year, up to this time, of 5,247,024 bushels.—*Chicago Times, Aug. 24.*

BILL ENGLISH DESERTED.—The constituents of Mr. Buchanan's candidate in the Second Indiana District, are already showing marked symptoms of a general rebellion against the Imperial decree from the White House. The organ of the Washington County Democracy (the Salem *Democrat*) repudiates English, and comes out directly for the Opposition candidate. A lively stampede of the Democracy of that county in the same direction, is spoken of as a certain event. The same thing may be looked for in the other counties.—*Cincinnati Gazette.*

POTATOES.—This weather is too dry for potatoes, and we think it will be a chance if they do not turn out small and scarce this year. Onions, too, have stopped growing, and are drying up.—We want rain badly.—*Dodge Co. Citizen*, 24th.

ABOUT HALF A CROP.—Nearly every farmer we meet tells us that his wheat is not more than half a crop. Other kinds of grain have fallen short in about the same proportion.—*Dodge Co. Citizen, Aug. 24.*

From the N. Y. Times.

Double Tragedy in Houston St.

A Young Girl Murdered by her Lover—Suicide of the Murderer—Coroner's Inquest on the Bodies.

The murder of a young German girl, named Valentina Guiger, by her lover, a young German, named Philip Manchenheimer, at a late hour Tuesday evening, and the subsequent suicide of the murderer, were briefly announced in yesterday's *Times*. The young girl was shot at No. 257 Houston street, where she boarded, the ball penetrating the heart and killing her [illegible]. Immediately after the [illegible] hurried to his lodgings, No. [illegible] street and [illegible] himself [illegible]. [illegible] of his forehead was blown away, and a portion of his brains was scattered about the [illegible]. He lived till 11 o'clock [illegible] morning, [illegible] being a call for [illegible] water, [illegible] occurrence.

Jealousy was the cause of the murder and suicide. Manchenheimer, about two years ago, became acquainted with Miss Guiger, and the acquaintance soon ripened into the intensest love on his part. This love was not reciprocated.—Strong hope was entertained by Manchenheimer of marrying the object of his attachment. He told several of his friends that he was going to marry her, and prepared suitable apartments for himself and his intended wife. He was led to believe that a young man living in the same house with his victim was an accepted lover of hers. One night, knowing that they were out taking a walk together, he armed himself with a dagger, and stealthily watched them, and, as he afterwards declared, intended to have killed them both, had the slightest evidence of attachment for each other been exhibited by either of them.

On Tuesday evening he invited Miss Guiger to take a walk with him, and they, accompanied by the lady with whom Miss Guiger boarded, went to the German Theatre, in Forsyth street, and there spent the evening in drinking lager bier. He appeared to be in excellent spirits, and conversed about the Atlantic Cable and other matters of prevailing interest. At 11 o'clock they went home, and, directly after entering the house, he pulled a pistol from his pocket and shot his victim. Mrs. Dresiger, the lady who accompanied them, had gone into a back room to light a lamp, when she heard the report of the pistol, instantly followed by the snapping of a pistol. As the weapon with which he subsequently shot himself was a double barrelled pistol, there is no doubt that after discharging one barrel at his victim, he intended to make way with himself with the contents of the other barrel, and failed in his intention only because the cap did not explode. He entered his own boarding house laughing, as though he was greatly pleased at something, and in less than five minutes shot himself as described.

About 4 o'clock, Tuesday afternoon, he called his landlady to his room and showed her the fragments of a likeness of Miss Guiger, which he had just broken into pieces by throwing it violently on the floor. As he left the house a few minutes afterwards, he told the landlady that if he did not come back shortly, she must sell his effects and take the proceeds as pay for what he owed her.

Miss Guiger was a native of Kensigen, in Germany, where her parents still reside. She came to this country about three years ago, and has most of the time worked at dress-making. She was a few months past nineteen, possessed a neat, trim form, a bright, fresh countenance, and is said always to have conducted herself virtuously and respectably.

Manchenheimer was twenty-two years of age, and a painter by profession. He was a young man of temperate and industrious habits, and has been four years in this country.

Inquests were held yesterday on the two bodies by Coroner Connery, a large and vastly interested crowd being present.

The Greek Roman Catholic Cathedral.

The corner stone of the St. Patrick's Cathedral in New York city, was laid a few days since with great display. The crowd was estimated at 100,000 people. In the address on the occasion, Archbishop Hughes stated that only a few days after issuing his circular for contributions with which to build the Cathedral, he had received responses from one hundred and three persons, who subscribed one hundred thousand dollars each. All the Suffragan Bishops of the Arch Diocese were present and about two hundred priests. The procession was immense and grandly imposing, and the ceremonies of the most elaborate style of that Church.

The Cathedral lot measures 200 feet by 400 feet. The Church will be Gothic and cruciform in shape, and to be built after the model of the splendid Continental Cathedrals. There will be three aisles, separated by lofty arches, supported on marble columns; opposite each arch of the nave a small chapel.

The body of the Cathedral, inside, will be 329 feet in length; the high altar will stand about fifty feet from the end, leaving room for a daily chapel in the rear; on either side, at either termination of the side aisles, are chapels capable of accommodating 400 persons each. The ceiling will be 110 feet high and rest on 57 marble columns. The width of the Cathedral, inside, will be 118 feet, and of the transept 144 feet.—There will be a high tower at each corner, and finished with an openwork spire, surmounted by a cross 333 feet from the pavement. The porch will be 28 feet wide and 54 feet high; all to be built of stone, brick and iron; the walls to stand on solid rock, and from the marble floor to the roof, everything is designed to resist every agent except time. The plan is a Latin cross 328 feet long and 175 wide.

It will be the largest church on the Continent; it is not so large as some of the largest European Cathedrals, but it is broader than most of the French, and higher than the majority of the English Cathedrals. It will cost one million of dollars, and will be a number of years in building.

A NEW ERA IN GUNNERY.—The Washington correspondent of the New York *Times*, recording an account of experiments made in that city with what is known as the Sawyer, says, it is the unanimous opinion of the Ordinance officers that this gun stands without a rival. At the distance of one mile the body of an ordinary-sized tree would not be missed at once in fifty times, so exact are its line shots. Mr. Sawyer superintends the firing in person, and in seventeen shots, at a distance of one mile, the furthest was not over three feet from the centre. Such shooting was never known before, and these experiments show that a new era in gunnery has dawned upon us.

The Sawyer cannon has a groove like a rifle, which forms a circle in twenty feet. The gun now being tested is a small one, carrying only about a six pound ball, and has been fired over two hundred times without the slightest injury. It is cast of the Alger iron of Boston, now considered the finest gun metal in the world. The ball is shaped like the Minie-rifle ball, and is filled with powder, which explodes after striking and entering an object.

GOLD DISCOVERED IN PRESCOTT.—Be not surprised at the announcement of this—it is a fact. Native gold has been washed from the sand of this city. Several days ago some of our people discovered indications that gold existed in this place, and set themselves at work to find it—determined upon a fair trial. The result of the search has been the discovery of a dozen or more small particles of pure gold washed from the black sand of this place. It has been tested by acids—is malable, and burnishes readily, and is pronounced by the best judges to be real gold. And we believe it is, and that it really exists in our soil. The only question now is, will it pay for digging? The discovery of this metal in other parts of this region shows that we have reason to believe that gold may be found at this place; and men, whose judgment in this matter deserves regard, have said that it is probable this whole country is sprinkled more or less with gold, and in some places it may be found in such quantities as to warrant the search for it.—The matter is sure to be investigated, and we shall soon know whether we are practically any richer for the gold deposits of our soil.—*Prescott Transcript, Aug. 21st.*

THE NICARAGUAN ROUTE.—The steamship *Hermann*, Captain Cavendy, will leave this port this evening, for the Fraser River gold diggings, touching at Rio de Janeiro, Valparaiso and San Francisco, and will take out upwards of 800 passengers. The *Hermann* will be the Pioneer steamer of the new Nicaraguan route, in the Pacific, to be followed shortly by the *Washington*. The *Hermann*, after going to Fraser River and landing her passengers, will return to San Juan del Sur, which will occupy about 90 days, when the route on the Atlantic side will be opened and a regular line of steamers will ply between this port and San Juan del Norte, connecting with the Pacific side by small steamers on Lake Nicaragua.—*N. Y. Express, Aug. 21.*

A PROMINENT CONGRESSIONAL DISTRICT.—The Cincinnati *Gazette* notices that the Warren Co. Congressional District in Ohio, in which Hon. Tom Corwin has just been nominated for Congress, has hitherto been represented by ex-Gov. Morrow, Judge McLean, of the Supreme Court, Gen. William Henry Harrison, John Woods, Thomas Corwin, from 1831 to 1840, Robert C. Schenk, and Lewis D. Campbell—all men of ability and celebrity.

TO THE PUBLIC.

"Competition is the Life of Business."

Printing at Prices that "Defy" Competition!

THE PROPRIETORS OF THE Milwaukee Daily Sentinel PRINTING HOUSE Are determined NOT TO BE OUTDONE IN LOW PRICES! Milwaukee & Beloit Railroad.

We learn that the Milwaukee and Beloit Rail Road have effected a full settlement of all demands with their former contractors, and what is still better paid them up in full.

Mr. CHARLES H. LARKIN, of this city, and Mr. E. H. BALL, of East Troy, have been elected as Directors in this Company, to fill the vacancies created by the resignations of Messrs. WM. J. WHALING, and WM. MULLINS.

It is the intention of the Company to resume the work of construction without delay. The work will be let in sections.

This enterprise is too important to our city to be allowed to slumber, and we hail this resumptive of work with great satisfaction.

THE NEWS AND NO. 6.—The correction of the *News'* unjust mis-statement, that No. 6 had "completely crawfished" on their challenge to the Janesville Firemen, by "a member of No. 6," which we published in Monday's paper, has ruffled the temper of our amiable cotemporary, and led him to indulge in a tirade of low blaguardism eminently worthy of its author. The *News* further belies No. 6, and makes sundry other mis-statements in its article of yesterday upon the subject. It says that the *Sentinel* "*first* promulgated the challenge of No. 6, and accompanied the article with a great amount of big talk." By reference to the files of the *News*, our neighbor will see that it was that journal which "first promulgated the challenge." As for the "big talk" we simply said, and now confidently re-affirm, that Engine Co. No. 6 cannot be beaten in throwing a stream, by any other company in the State.

But the *News* dogmatically refuses to give credence to the positive statement of the members of No. 6, and in its fury calls upon the Janesville papers for information!

Had our neighbor read the Janesville papers, the *Standard* at least, which spoke by authority of the "Janesville Firemen," he might have obtained the required information long since, and been spared the humiliation of making himself ridiculous. The challenge was withdrawn by mutual agreement, as the Janesville Company had supposed that their machine was of equal capacity with that of No. 6, and the members of the latter Company were laboring under the same error. Under these circumstances, there was no ground for either party to make a "blow" about "crawfishing," and the facts were mentioned in the Janesville *Standard.*

The *News* also takes the opportunity, in its usual malignant spirit, to indulge in an unmannerly fling at a gentleman whom every member of No. 6 respects, as the name which they gave their machine is evidence—a gentleman too, who knew nothing of the communication which so "riled" our neighbor, until it appeared in the *Sentinel.*

CHANGE IN THE HOTEL WETTSTEIN.—That widely known and favorite Hotel, kept by Mr. THEODORE WETTSTEIN is temporarily closed, its late proprietor's lease having expired, and the building being thoroughly refitted preparatory to its occupancy by Mr. SPARR, formerly connected with the Prescott House, New York.—Mr. WETTSTEIN, the public will be glad to learn, is about opening a first class Hotel in the splendid new building of Capt. UPMAN, on Market Square, a few doors from the late Hotel Wettstein. Mr. WETTSTEIN's reputation is a sufficient guarantee that he will keep the new hotel in a manner that will be an honor to the city and reflect credit upon himself. The new building was designed expressly for a hotel, and it is extremely commodious, and well adapted to that purpose. It will be opened, we are informed, in the course of a month.

MR. SPARR is making active preparations to have his hotel ready for the reception of guests by the latter part of the present, or fore part of next week. His long experience in the management of one of the best hotels in New York, will enable him, no doubt, to keep an excellent house. The vastly increased travel through this city, consequent upon the opening of the La Crosse Railroad to the Mississippi, and also the opening of the great thoroughfare to the East, the Detroit and Milwaukee Railway, will no doubt furnish all our hotels with plenty of business,

REFUSAL OF THE DISTRICT ATTORNEY TO PERFORM HIS DUTY.—The case of the State against CATHARINE WARNER, charged with keeping a house of ill fame, came up in the Police Court yesterday afternoon for examination. A large number of witnesses had been supponaed, the defendant had her attorney in readiness, and all the preliminary arrangements were made to go on with the trial, when the constable who had been sent to notify the District Attorney that the case was ready, came in and informed the Court that this officer had informed him that he would have nothing to do with such cases. Judge WALWORTH, after questioning the officer as to whether he had explained the nature of the case to the District Attorney, and having been answered affirmatively, read that section of an act entitled "Of offences against public policy," defining the punishment for the offense with which the defendant was charged, and also the following two sections from the same act.

> An act to amend chapter 138 of the Revised Statutes, entitled "Of offences against public policy."
>
> SEC. 20. Whenever any District Attorney, Sheriff, Constable or Police Officer shall have knowledge or receive satisfactory information of a breach of any of the provisions of this act by any person, it shall be the duty of such District Attorney, Sheriff, Constable, or Police Officer, to arrest or cause to be arrested, the person so offending and to bring him before some judge or Justice of the Peace, or Police Justice of the proper County or before some court of competent jurisdiction to be prosecuted and punished as provided by this act.
>
> SEC. 21. It shall be the duty of all District Attorneys, Sheriffs, Deputy Sheriffs, and Police Officers, in their proper County, to complain and give information of any breach of any of the provisions of this act, or of the act to which this act is amendatory; and if any of the above named officers shall fail to complain and give information of any breach of any provisions of this act, which shall come or be brought to his knowledge, or if any of the above named officers shall neglect or refuse to perform any of the duties enjoined on them by any of the provisions of this act, he shall forfeit his office, and may be removed from the same by the Governor, giving such officer a copy of the charge against him, and an opportunity of being heard in his defence.

The Court then remarked, that under the circumstances there was no other method but to adjourn the case, in order that the District Attorney might have a full opportunity to attend to it. The case would therefore stand adjourned until to-morrow morning, and should the District Attorney fail or refuse then to give it his attention, Judge WALWORTH said that he felt that it would be his duty to present the matter to the Governor. The defendant was therefore remanded to jail, in default of $1,000 bail.

POLICE COURT YESTERDAY.—A dance at Treat's Hall, on Monday night, was the cause of the usual accompaniment with dances at that place, a free fight, and the consequent, a squad of belligerents in the Police Court yesterday morning. Whiskey and Beer were dealt out in large quantities, and as a matter of course the dance had not progressed far, when the rowdy portion of the guests, betook themselves to the more lively exercise of pummeling each other. Before the melee resulted seriously, two policemen were in attendance, and they succeeded in quieting the disturbance by conducting four of the most prominent amongst the pugilists to the "lock up." Upon examination in the Police Court yesterday morning, two of them, Henry Reider and Gabriel Swain, were discharged, as it appeared that they were the musicians and the only part they took in the fight, was to assist in turning out a lot of rowdies who had forced their way in. The other two, Bartholomew Evans and J. Davis, were fined $10 and costs each.

Charles Thackeray, charged with disorderly conduct, in assisting his wife to thrash another woman, was discharged, the evidence being insufficient to convict him. His better half, Mary Ann, was fined $10 for her mis-behavior. She gave a neighbor's wife a terrible trouncing, the latter, as she alleged, having called her abusive names.

Patrick O'Rourke, a jolly old lad, right from the bogs, was arraigned upon the charge of having been found upon the street "gloriously drunk," and as is usually the case with Pat, when he has taken "a dhrop too much," extremely pugnacious. Pat was reduced to such a state that one sidewalk was quite insufficient to accommodate more than himself, and it was with no little difficulty that a police officer succeeded in conducting him to safe quarters. The defendant was fined $3, in default of which he was sentenced to 10 days in the County Jail. He considered it great injustice to be interfered with "when a body was going about his business after taking a dhrop, and thin to be abused by a d—m policeman, because he wanted to go home peaceably. Faith it is too bad, shure!"

MURDEROUS ASSAULT.—On Monday night about 11 o'clock a desperate assault was made upon a man named FRANK CHRISTIANSON, who keeps a grocery store on Reed street, in the Fifth Ward, by two men unknown to him. He was going home at the time, and was at the corner of Ferry and South Water streets, when one of the assailants struck him a desperate blow with a slung shot upon the head, inflicting a deep wound over one of his eyes. This knocked him senseless when he received another blow which also cut a deep gash in his head. Hearing persons coming at this stage of their bloody work, the ruffians fled across the bridge and down towards the lower parts of the Third Ward, leaving their victim lying bleeding and senseless upon the street. A man met them crossing the bridge, but did not know what was the cause of their flight until he came up to the wounded man. The bridge-tender and two other men helped CHRISTIANSON home; he had no idea who the fellows were that attacked him. There was no police officer or watchman near by at the time.

ELEGANT NOTE PAPER.—We are indebted to Messrs. NOONAN & MCNAB for samples of two new styles of letter and note paper, just received by them, which for smoothness of surface and beauty of finish, surpasses any that we have yet seen. Those who desire an elegant article of note paper can find what they want at Messrs. NOONAN & MCNAB's. These gentlemen have on hand a very large and carefully selected assortment of printing paper, wrapping paper, letter and note paper, and everything else in their line the public need. Their store, next north of the City Post Office, is filled with a choice stock, and they are now filling orders, not only for our own State, but for Iowa, Minnesota, Illinois and Michigan.

M. L. G. ARMORY, MILWAUKEE, AUG. 23, 1858.—At a meeting of Co. "B," Milwaukee Light Guard, held on Saturday evening, Aug. 11, 1858, it was unanimously

Resolved, That the thanks of this Company are hereby tendered to "Merrill's American Cornet Band" for generously volunteering their services at the funeral of Lieut. Hawes, late of the U. S. Army.

W. L. HINSDALE, Secretary.

ACCIDENT.—A laboring man, whose name we did not learn, had his right hand crushed to atoms, by one of STARKEY Brothers pile drivers, at work in the river yesterday afternoon. The hammer accidentally fell while he was arranging a pile under it, and his hand so seriously crushed that amputation was necessary.

THE GIFT BOOK SALE will close at 193 East Water street, the 30th of August. Go soon if you want valuable gifts worth from $1 to $100, or can have an extra book instead of a gift, making two for $1,25. The books are all new and perfect.

PUBLIC PRINTING.

SEALED PROPOSALS will be received at the office of the Secretary of State, in Madison, up to the twenty-third day of September next, at 2 o'clock in the afternoon, for doing for the State of Wisconsin, at the seat of government, all Printing and binding of every kind and description, for which the State may be liable to pay, contemplated in chapter 114 of the General Laws of 1858, entitled "An Act relating to Printing, approved May 17th, 1858." Such printing to be provided for in one contract, to continue for two or four years from the first day of January next, as the Board of Commissioners may direct at any time before such contract is entered into, and to be divided into three classes, as follows:

1st. To comprise all printing incident to the business of the two Houses of the Legislature while in session.

2d. To comprise the journals and documents of the two Houses, and all general and local laws passed by the Legislature.

3d. The printing of the several State departments, including all blanks, blank books used in the several branches thereof of all kinds and descriptions whatsoever; to include such blanks as have heretofore been lithographed or engraved, used in the several departments.

No bid will be considered unless accompanied by a guarantee of twenty thousand dollars that the bidder if successful, will execute to the State a bond as contemplated in said act. Specifications as to what shall constitute a printing bid, will be subject to examination at the office of the Secretary of State on and after the 20d day of August. Such specifications together with the proposal of the successful bidder to be attached to and form a portion of the contract at the time of consummating the same.

A basis will be adopted by the Commissioners, to be in readiness at the hour of opening the bids, upon which basis each of the bids will be computed, but said basis will form no part of the contract, and will in no manner be binding upon the State as to the quantity of the work required.

Bidders are required to furnish specimens of each class of all classes of work bid for. Such specimens as are deposited by the successful bidder shall be kept by the Secretary of State, as a standard criterion for all work provided for in such contract, and shall be the guide for auditing all accounts under the same. Should any work prove inferior to such specimens, in the opinion of the Secretary of State, or other officer duly authorized to canvass the same, such work will be refused.

The successful bidder will be required to execute under the terms of his contract, all printing and binding for the State, which the present contractor is not bound to execute, or which he claims not to be under the provisions of his contract from the execution of such contract to the first day of January next.

The contract may be annulled for unreasonable delay in doing the work, or for doing it in an inferior or improper manner. The contract for such printing to be made and executed under and subject to the provisions of chapter 114 of the general laws of 1858, above referred to, to the details of which, as well as to the specifications and requirements as to bids, above referred to, the attention of bidders is particularly called.

Proposals must be sealed and marked on the outside "Proposals for Printing," and be sent through the post office, directed to the Secretary of State, Madison, Wis."

Given under our hands, at the Capitol in Madison, this 21st day of Aug., A. D. 1858.

BY MAGNETIC TELEGRAPH

Message from London Yesterday!

NEW YORK, Aug. 24

At about 2 P. M. to-day, CYRUS W. FIELD received a despatch from J. C. M. LAWSON, Esq., one of the Directors of the Atlantic Telegraph Co., bearing date London TO-DAY. Time is literally annihilated. The following is the reply of the Lord Mayor of London to the Hon. DANIEL F. TIEMANN's Message of congratulation:

LONDON, England, Aug. 23.

To the Hon. D. F. Tieman, Mayor of New York City:

The Lord Mayor of London most cordially reciprocates the congratulations of the Mayor of N. Y., upon the success of so important an undertaking as the completion of the Atlantic Telegraph Cable. It is indeed one of the most glorious triumphs of the age, and reflects the highest credit upon the energy, skill, and perseverance of all parties entrusted with so difficult a duty. The Lord Mayor sincerely hopes that by the blessing of Almighty God, it may be the means of cementing the kind feelings which now exist between the two countries.

(Signed,) A. W. CARDEN,
Lord Mayor of London.

The Atlantic Telegraph, &c.

ST. JOHNS, N. F., Aug. 24.

The working of the Atlantic cable continues to improve daily, and the electricians have good reason to hope that the cable may soon be opened to the public.

The death of Mr. Eddy, late Superintendent of the American Telegraph Company's lines, and Honorary Director of the Atlantic Telegraph Company, was made public here to-day at 1 o'clock, and created universal and profound sorrow. The flags of the shipping are at half-mast, and other appropriate demonstrations are being made.

NEW YORK, Aug. 24.

We understand that the French Government has granted to the Atlantic Telegraph Co. the exclusive right for fifty years, to land Telegraph cables on the islands of Micullon, which lie between Novia Scotia and Newfoundland, in a direction about 80 miles south-west from the latter, and about 200 miles distant from Sidney, Novia Scotia, having secured to right, it is proposed to run the cable from Placentia Bay, N. F., to St. Pierre, the chief fish depot of the Island, and thence to a point near Sidney, Cape Breton, Nova Scotia.

By this means the two French islands will be thrown into telegraphic communication with Europe, while the company will get rid of the necessity of keeping in repair some four or five hundred miles of land line running across Newfoundland, and Cape Breton, through regions where there are no inhabitants, excepting a few scattered Indians, and no roads, other than those which have been constructed by the Telegraph company, at its own expense. In according this liberal grant, the French Government doubtless had in view the advantage it must confer on its immense interest, which centre a St. Pierre, and which will then be brought into daily, and almost instantaneous communication with France.

Later from Europe—Arrival of the Canada.

HALIFAX, Aug. 24.

The R. M. steamship Canada, from Liverpool 14th, arrived late last evening. The North Star arrived out on the 13th.

In the Liverpool Cotton Market holders offered freely, though there was none pressing on the market; quotations barely maintained.—Breadstuffs had a declining tendency. Provisions quiet, except lard. Consols 96¼a96⅜.

Washington Matters.

WASHINGTON, Aug. 24.

Assistant-Surgeon Edward Hudson has been promoted to Surgeon, vice Nelson, resigned.

T. W. Leach has been appointed assistant-Surgeon, vice Hudson, promoted.

E. E. Potter, master, has been appointed Lieut., vice J. M. Reid, deceased.

A. H. Lanedale, of Washington Territory has been appointed Agent for the Flat Head Indians of that Territory.

T. Rush Spencer, of Wisconsin, has been appointed receiver of public monies at Superior, in that State, vice E. B. Dean, removed.

The War Department has despatches from General Johnston, from Utah, to July 22; but they contain nothing of general interest. The troops were erecting warehouses and preparing to go into winter quarters. Officers of the volunteer regiments of the District of Columbia had a satisfactory interview with the President and Secretary of War to-day, with regard to an efficient re-organization of the militia under the existing law.

Purser Danforth has been tried by court martial and sent home, and Purser Wilson has been transferred to the Vincennes in his place.

The sale of public lands in Nebraska, advertised to take place next Monday, will be postponed for the benefit of the settlers thereon.

William C. Wheeler has been appointed Chief Engineer of the steamer *Water Witch*, now fitting out for the Paraguay expedition.

Col. Rector, Supt. of Indian affairs for the south-western District, west of the Arkansas, will, on his return thither distribute to the Seminoles and other tribes, nearly a half million of dollars in presents and annuities.

Mr. Turbin, successor to Mr. Eames, as Minister to Venzuela, is on the eve of leaving for that country, having received his instructions.

Jas. Green killed a Mr. Carver, of Mobile, at Warrenton Springs, last night, with a bowie knife, in a rencontre. The same parties were recently arrested in Washington and prevented from fighting a duel. Both are young. Green is in custody.

Nominations.

PHILADELPHIA, Aug. 24.

In the First Congressional District, a split has occurred in the democratic nominating convention, and two bodies are in session. Thomas B. Florence has been nominated by his friends, and the Anti-Lecompton portion have nominated Doctor Nebinger. In the 2d District the democrats have nominated Geo. H. Martin. In the 2d Jas. Landy, and in the 4th Henry M. Phillips.

DAYTON, O., Aug. 24.

Lewis D. Campbell was nominated to-day by the Republican Convention at New Paris, receiving the vote of every delegate from the three counties composing the district.

Held to Bail.

BOSTON, Aug. 24.

Mr. Dr. Brown was to-day held to bail in $5000, for examination on Wednesday next, on a charge of manslaughter, in causing the death of a girl by abortion.

Earthquake in New Hampshire.

HOLDERNESS, N. H., Aug. 24.

A shock of an earthquake shook the houses in this place considerably, at 1 o'clock.

Grand Regatta at Springfield, Mass.

SPRINGFIELD, August 24.

The regatta of row boats to occur in this city on Friday next, promises to be a brilliant affair. Numerous boats, some of them celebrated by past achievements, are promised from Boston, New Brunswick, Albany, Hartford, New London and other places; and it is expected that at least 25 boats will be here. The races are divided between four oared boats, and six and eight oared boats. There will be a grand closing race, open to all boats of more than four oars, for one hundred and fifty dollars.

New York American State Council.

ALBANY, August 24.

The American State Council met at the Association Hall to-day. Nearly 400 delegates were present. A motion being made to give a pass word to delegates, and exclude all others from the Hall, Erastus Brooks opposed it, saying that the time was past when policy dictated closed doors, and for his part he was ready to throw open this and all future conventions to the public, so that misrepresentation and falsehood might no longer be published to the world as true.

ALBANY, Aug. 24.

The American State Council re-assembled at 3 P. M., when the committee reported officers for the ensuing year. The Council adjourned, after fixing upon the 22d of September as the day for holding the State Convention at Syracuse.

Kansas Election Returns.

LEAVENWORTH, Aug. 20.

By U. S. Express to Boonville, official returns from 28 counties, partially from two, and four yet to hear from, gives the following result:—Whole vote, 13,380—Majority against the English proposition, 9,048.

Mayor Tiemann's Message.

SACKVILLE, N. B., August 23.

Mayor Tiemann's Message to the Lord Mayor of London, has been transmitted through the Cable. Its refusal by the operator at Coun Station, N. F., was from a misapprehension of the instructions of the managers of the Telegraph Company, which was corrected by a despatch from Cyrus W. Field. The electricians at Valentia Bay made no opposition to the passage over the cable, but cheerfully executed their portion of the duty.

Preparing to Celebrate.

WORCESTER, Mass., Aug. 23.

The government of this city, last evening voted to celebrate the 1st of September as a general holiday. The military and firemen will parade during the day, together with such civic societies as may wish to join. In the evening the City Hall will be illuminated and fireworks displayed.

Fire at Fort Wayne.

FORT WAYNE, Aug. 24.

The front division of the extensive warehouse of Hill & Robinson, was entirely destroyed by fire this morning at 8 o'clock. The more valuable portion of the stock was in the rear division, which, together with a large stock of wool, was saved.

Deaths by Yellow Fever.

NEW ORLEANS, Aug. 28.

The deaths by yellow fever on Saturday were 78. The total number of deaths last week were 310.

NEW YORK, Aug. 24.

MORE TO BE ADMIRED THAN THE RICHEST DIADEM EVER Worn by Kings or Emperors.

WHAT? WHY A BEAUTIFUL HEAD OF HAIR.

Because it is the ornament *God Himself* provided for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, *harsh* and *dry*, or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

DR. WOOD:— NEW YORK, April 19th, 1858.
Dear Sir: Permit me to express to you the obligation I am under for the entire restoration of my hair to its original color. About the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its former hue. I consider your Hair Restorative as a very wonderful invention—quite efficacious as well as agreeable. I am, dear sir, yours truly,
S. THALBERG.

"Drych a'r Gwyfedydd."
WELSH NEWSPAPER OFFICE, }
113 Nassau st., April 12, 1858. }

PROF. O. J. WOOD—*Dear Sir:* Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color; but to her, as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hair back to brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change in their hair.
CHARLES CARDAW.

NEW YORK, July 25, 1857.
PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being a most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.
J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grew out, and turned back to its former color, black. At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all.
J. D. HOES.
Chicago, Ill, May 1, 1857.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3.

THE LIVER INVIGORATOR!
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

IS one of the best purgative and Liver medicines now before the public, that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a *Cathartic*, but a *Liver remedy*, acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the *Liver* for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

BILIOUS ATTACKS are cured, AND WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

☞ One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

☞ Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞ One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHOEA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it *never fails*.

☞ A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

☞ MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures almost too great to believe. It cures as if by magic even *the first dose giving benefit*, and seldom more than one bottle is required to cure any kind of LIVER Complaint, from the worst *Jaundice* or *Dyspepsia* to a common *Headache*, all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

Our Congressional Convention.

On Saturday evening next, the Republican electors of this city meet in their respective Assembly Districts to choose Delegates to the Congressional Convention which meets at Racine, on Tuesday next. The foregone conclusion that our present faithful and fearless Representative, JOHN F. POTTER, is to be re-nominated, takes something from the interest of these meetings. We trust, however, that the Republicans of our city will make it a point to attend them and take care that every Assembly District is fully and fitly represented. At the Racine Convention measures should be devised for an active and thorough canvass in this District. Parties are very equally divided here, and superior activity and management will be very apt to decide the result.

Let no honorable effort be wanting on the part of the Republicans of the District to give JOHN F. POTTER our entire and unbroken vote. He is eminently worthy of it, and his re-election depends upon it. Any faltering, or falling off, on the Republican side, will be pretty sure to defeat him. This conviction should be brought home to every elector in the District who clings to the Republican faith and is not yet weary of fighting the battles of Freedom, Humanity, and Justice. If this is done and the full vote of the District brought out, we think there can be no reasonable doubt of Mr. POTTER's re-election.

The Family Paper on the Land Grant.

The *Wisconsin* of Monday, amuses the public with one of its heterogeneous articles on Gov. RANDALL and the Land Grant. In dealing with such topics, as with political matters, the "Family paper" labors under the somewhat serious disadvantage of speedily getting beyond its depth, and floundering about at random. However, its inventive faculties being tolerably well developed, it supplies any lack of facts by a copious array of fictions. Here are a few samples, taken from the article in question:

> After four days consideration, and after finding out whether it would offend its political friends, the *Sentinel* publishes John P. McGregor's letter.

The *Sentinel* published the letter upon the first request, without a moment's "consideration," and without stopping to ask, or caring to know, whether it would please or offend, friend or foe.

> Under the goad of the same healthy public sentiment, the *Sentinel* says it has *not* been converted to the views of Gov. Randall.
>
> The *Sentinel* expressed its opinion on the Governor's letter long before the "healthy public sentiment" was developed, and if it consulted that alone would certainly change its ground and side *with* the Governor; since it is perfectly obvious that the "public sentiment" throughout the State is in his favor.
>
> The *Sentinel* feels itself in a very shaky position, having taken ground against its Governor, and is clearly anxious to craw-fish at the first opportunity.

The reader will be struck with the remarkable consistency between this extract and the one above. As each contradicts the other, it is unnecessary for us to say that both are fabulous.

> *Personally, our interests would be subserved by the swindling of the Land Grant Bond-holders.*

A precious confession truly! How the "interests" of the *Wisconsin* are to be subserved by such a process, does not appear; but we have its own authority for the fact.

> This Journal *purposely abstained* from speaking our mind for nearly two weeks after Gov. Randall's first letter in the *Madison Journal*. We considered it wisest to let the *Sentinel* and *Free Democrat* get committed against Randall's views.

Exceeding wise, no doubt, to hear from the *Sentinel* and *Free Democrat* before committing itself. If the *Wisconsin* will adhere to this sensible practice, it will avoid a good many blunders.

> We believe when the November canvass comes in the *Sentinel* will find that there is an anti-Randall majority in the next Assembly.

And we believe the *Wisconsin* will find a decided majority in the next Assembly who will sustain Gov. RANDALL in this Land Grant matter. Let the event decide.

INSISTS ON MAKING A FUSS.—The *News* apprizes us that itself and "several (other) Republicans," of the same sort, do not concur in our opinion, that the appointment of Dr. BUGH is too small a matter to make a fuss about. Very well. We know of no law against the *News* and its "republican" friends making just as much "fuss" about it, as they please. We only spoke for the *Sentinel*.

STRAWS, &c.—The *News* of yesterday publishes and calls attention to a communication from some anonymous correspondent, who is troubled in mind by the remarks of the *Sentinel* about the Congressional canvass in this District, and especially disgusted with the prospect that Mr. JAMES S. BROWN is to be the Democratic candidate. The closing paragraph is as follows:

> The *Sentinel* has heretofore sold its own party to the Jenny Lind Club; and Randall and the *Sentinel* are now negotiating for a sale of the Republican party. This mongrel political prostitution has been carried far enough; let us put a stop to it by electing *a simon pure Democrat*, or again submit to be represented by a republican dyed in the blood.

The silly imputations against Gov. RANDALL and the *Sentinel* are thrown in merely by way of blinds. The *animus* of the writer and his object are betrayed in the allusion to the "Jenny Lind Club" and "mongrel" politicians, as well as in his advice to elect "a simon pure Democrat," or else re-elect Mr. POTTER. The *News* and its correspondent, it seems, are strongly disposed to rule out Mr. BROWN, as not a "simon pure Democrat," but it may be seriously questioned whether their power is equal to their will. Whatever else they may do, we beg them not to favor Mr. POTTER, for that would be fatal to his success.

WISCONSIN BANKS.—The bankers and brokers of Chicago, have commenced a raid on the Wisconsin banks, for what reason is not and probably can not be clearly shown. On Tuesday last twenty-six banks were thrown out, and circulars have been issued and telegraph despatches sent all over the country announcing the fact, the result of which has been to increase the rate of discount in this city to some three per cent., and nothing more. It is a little singular that Illinois bankers and brokers, the owners and operators of all the principal rotten Wild Cat institutions in the country, should begin an onslaught upon the banks of Wisconsin, and the movement is sufficient of itself to excite suspicion. When it is known, however, that the banking system of Wisconsin is the best by far of that which prevails in any of the Western States; that the notes of all the banks discredited by the Chicago financiers are amply secured, as appears by the State Comptroller's Report; and that Wisconsin, unlike Illinois, affords no facilities for wild cat speculations, this hostility is easily accounted for. We advise our readers to make no sacrifices on this kind of money, and not, by rushing to the brokers, add to the excitement and aid the schemes of the Illinois Wild Cat operators.—*Buffalo Express.*

The Chicago Brokers get nothing but hard knocks, on all sides, for their crusade against Wisconsin Money. It will be some time, probably, before they repeat their experiment. The only effect has been to bring our Banking System into wider notice, and to elicit such complimentary expressions, as that above quoted, to the soundness of our Banks, and the safety of our Currency.

ONLY TWO PARTIES.—A republican from the central part of Illinois, whom we know to be a truthful, candid man, informs us that in his section of the State there are but two parties—the Democrats who sustain Douglas, and the republicans who sustain Lincoln. The anti-Douglas Democrats are about as scarce as white blackbirds are, south of Cook county.—*News of yesterday.*

There is no question that the "National Democracy," or Administration party, are lamentably weak in Illinois, as in Wisconsin; but it is ungracious, not to say ungrateful in the editor of the *News*, who so recently wore the Administration livery, to twit his *quondam* friends with the fact.

A SENSIBLE CONCLUSION.—The *Jeffersonian*, after exposing a long course of Republican meanness, says it has got done playing "fast and loose," and trying to please both parties. It will, henceforth be uncompromisingly democratic.—*Madison Argus.*

The "meanness" exposed was simply the bestowal, by the Republican County Clerk, upon a friendly paper, certain printing which the *Jeffersonian* not unnaturally desires to have itself. A kindred course, loss of office, has brought the *News* to the "sensible conclusion" of opposing BUCHANAN Democracy and going in, "uncompromisingly," for the DOUGLAS stripe.

DIVISION OF LABOR.—While the Madison *Journal* is required to publish the forgeries of the Randall party, it devolves upon the *Sentinel* to do most of the coarse hand lying.—*News of yesterday.*

There is no such "division of labor" in the BARSTOW party. The "forging" and "lying" are both done by the *News*, which proves itself quite equal to the congenial task.

THE JAFFA OUTRAGE—THE MURDERERS ARRESTED.—Letters just received from Beirut, Syria, state that the five men accused of the murder of Mrs. STEINBECK, the murderous assault upon her father in-law, Mr. DICKSON, and the Sepoyan outrages upon Mrs. DICKSON and two daughters, all Americans, the elder being the wife of the murdered man—the 11th of January—have been brought to Beirut for trial. The Vice Consul, deputed by our minister, is with them to see that justice is secured.

QUEER LIBEL CASE.—A report having been published in York, Pa., that the cholera was raging in Columbus, Pa., the editor of the Columbia *Spy* announced that "the terrible disease known as *psora* (in plain English, the itch) was raging at a fearful rate among his York neighbors, and that all efforts to stay the fearful *plague* had proved unavailing." And for this the editor has been arrested for libel on the borough of York, and held to bail.

A NEW FEATURE AT SYRACUSE.—The Syracuse *Journal*, in describing Tuesday's jollification over the Atlantic Cable says:

> "A new feature was introduced—and such a feature! All of a sudden, and all at once, *fourteen locomotives* sent up such a shriek from their steam whistles which shook the firmest buildings to the centre, deafened every ear, and penetrated, as we verily believe, west to Lake Erie and east to tide-water. There is no description, in poetry or prose, which can convey any just idea of the noise (that is the only word) that was thus created. It was positively awful. Such an unearthly sound—such a strange, mysterious and overwhelming sound—such a terrible, tremendous and monstrous sound—never was heard before. It reminded us of the seven thunders of the Revelation; of a legion of Niagaras; of the horn of Gabriel, (we speak reverently) and the Day of Judgment! Men grew pale, women fainted, and children went into convulsions as they heard it."

A COINCIDENCE.—A Sandwich (Mass.) correspondent of the Boston *Traveller*, writing about the Cable celebration in that town, says:

> "It is rather a remarkable circumstance that the powder which was used in firing the cannon to celebrate the connection by a Cable from England to the United States, is the same which was purchased in the war of 1812 to fight our then English enemy. It has been kept in a tight cask in the old Magazine, situated in the old Cemetery since that time.

"PROTECTIVE" DEMOCRACY IN NEW JERSEY.—In the First District of New Jersey, the Democratic Congressional Convention assembled on Wednesday, and nominated Judge George A. Walker, of Atlantic county. The Douglasites were in the ascendant, and the Administration was endorsed *only* on the right of search question, as to which its action agreed with the views expressed by leading Republicans, in and out of Congress. A resolution was adopted recommending *a modification of the tariff*, so as to afford *sufficient protection* to the (now depressed) *iron, glass and other manufacturing interests*. The Eastern Democracy are determined on reviving the Protective Tariff issue, and strange as it may seem, come up now on the side which that party has always opposed.—There is a good time coming.—*Cincinnati Gaz. Aug. 21.*

A PRECIOUS SCOUNDREL.—In our paper of Saturday, we mentioned the rumors current respecting J. H. Preus. We understand that Mr. D. J. Hale, of this city, purchased of Preus some time last year a mortgage for $2,500 upon the farm of Totson Ericson, a Norwegian, in the town of Christiana, in this county. With the interest it amounted to over $1,600. On Saturday, hearing the rumors of Preus's flight, he set out for Christiana, to ascertain whether or not his mortgage was among the forgeries.

He found that Ericson had never heard of the mortgage before, and that it had been forged by Preus.—*Madison Journal.*

The Result of the First Lincoln and Douglas Debate.

The Republicans were in their glory at Ottawa on Saturday, the foolish statements and falsehoods of the Chicago *Times* to the contrary notwithstanding. At least two-thirds of the meet assemblage that was attracted thither to listen to the Lincoln and Douglas debate, was composed of Republicans, and every candid man present whom we have seen, bears testimony to the fact that Lincoln "took down" Douglas most effectually, on every point of the debate. The genuine enthusiasm of the occasion was all on the side of Lincoln, and so pleased were his friends with his strong and crushing reply to the misrepresentations and sophistications of Douglas, that when he concluded his speech, they rushed up to the stand, took him upon their shoulders, and bore him in triumphant procession to the house of Mayor Glover, where he stopped.

In the evening the Republicans had a grand time. Preceded by a band of music, they marched in procession to Mayor Glover's, and escorted Messrs. Lincoln and Owen Lovejoy, from thence to the Court House, where one of the most enthusiastic impromptu meetings that was ever gotten up, was held. Mr. Lovejoy made a telling speech—one of his characteristic sledge-hammer efforts,—after which the masses—all Republicans—(for the Douglasites had hidden their heads in shame, at the, to them, inglorious result of the public debate,) formed a grand torch-light procession, and paraded the streets with loud "hurrahs for Lincoln," until a late hour.

Every Republican present at this first regular tussel between Lincoln and Douglas, felt entirely satisfied, and the general opinion is that in the Third Congressional District, at least, Douglas is "a dead cock in the pit."—*Chicago Daily Journal.*

Another Terrible Tragedy—A Father Murders his only Living Child.

For the *sixth* time within a few short months, we are compelled to chronicle a frightful tale of blood, and add another deed of violence to the gloomy retrospect. Each of the murders have been marked by frightful acts of violence, but the surroundings of the one we are about to relate seems to us more frightful than all. At one time, a woman was hacked to pieces and freighted to a distant destination; at another, a woman was beaten to death; another woman died from the kicks and blows of a drunken husband; an unoffending traveler is murdered upon the highway; a man shot in cold blood, under the noon-day sun, amid a crowd of witnesses; but this time, an innocent child is cleft by an axe in the hands of a desperate father, while making the coffin for his infant, lying dead in the next room.

The circumstances are these: Johann Nebassyl and Katrina Nebassyl are natives of Bohemia. They were married ten years ago. He has always been a kind husband to her and no difficulty has marked their married life, except that she did not wish to come to this country with him. They packed up what little they had, and, together with their children, came here, arriving at New York about a month ago.

They came directly to Chicago and rented rooms on Butterfield street, of Nicholas Weier, paying therefor $3.50 per month. The father then tried to get work. He was a cabinet maker by trade, but could find nothing to do.—Gradually his money was wasting away and when that was gone, he knew not where to replenish his stock. He was in a strange land, could not speak the language, was without friends, without work, and finally, without hope. Despair seized upon him. His youngest child sickened, drooped away and died, only last Friday evening, partly from disease and partly from want. The wretched man then became desperate. He told his wife that he would kill his children and drown himself.

On Saturday last, he, in company with a neighbor, Peter Hasbrecht, were engaged in making a rough pine coffin for his youngest child.—Upon some pretentious errand, he went up stairs with his hatchet in his hand, met his little daughter Marie, only five years of age, and buried the hatchet deep in her head. His wife screamed, the neighbors ran in and the wretched man burst from the room, and with his hands to his head, ran screaming over the prairie. A policeman followed him and brought him back. Word was then despatched to the Coroner who proceeded to hold an inquest. The following jury was summoned:

Dr. McGee, foreman; Peter Zipp, Wolf Reisel, C. Tilmart, H. Janst, Nicholas Guntrey, John M. Joner, John M. Matthew, John Saier, Dr. Knobblock, A. Meier, John Franz.

The jury having seen the body, adjourned to a room in the hospital near by, where the investigation commenced. The testimony before the jury merely covers what we have narrated above, and at its conclusion the wretched man was committed upon a coroner's warrant to await his trial for murder.

The scene of the murder was indicative of extreme poverty. Not even a chair or a bedstead were in the room. A pallet of dirty straw lay in one corner, and a few articles of provision were scattered about. In one corner, stretched upon a pillow, was the corpse of the infant, who died the day before, its attenuated and shrivelled face and limbs speaking too plainly of want and disease. In the middle of the floor, covered with a torn remnant of calico, was the murdered girl.

It was a horrible sight, an illustrated tale of poverty, disease, misery, death and murder; a tale which too many of us should read and gaze upon, that we may learn how much of misery, humanity can endure and imbibe a lesson in the discharge of our duties towards the wretched poor, who live in the shadow of our doors. In view of the alarming frequency of murder, we may well ask, "whither are we tending?" It is not enough that we read the dreadful tale, shudder at its depravity, and thank God that we are not as murderers. What is the pulpit doing in the matter? We listened yesterday, to fine discourses upon the Christian graces, and we thought that the text "Thou shalt not kill" would have been more appropriate.

But the terrible deed is done and the blood of the murdered one cries up from the ground for vengeance. Let the strong arm of justice do its work.—*Chicago Journal.*

Supposed Accident—Man Killed.

On Saturday evening, about half past seven, information was brought to Mr. C. Bunce, Superintendent of the Poor, that a man, in a dying and insensible condition, was lying near the track of the Lake Shore Road, about a mile north of the Depot. In company with Mr. Tillepaugh and Mr. Frank Schneider, he repaired to the spot designated, where the man was found, insensible, with two or three severe bruises upon his face and one arm. He was brought immediately to town, and taken to the Racine House, where everything that could be was done for him, but it was of no avail. He lingered until this morning about half past six, when he expired.

From papers about his person, it was discovered that his name was M. Cunningham. He lived on the "Healy Place," between Burlington and Rochester, and on Friday night left home for the purpose of attending a foreclosure sale in Kenosha, upon a mortgage which he owned.—He went there on Saturday morning, taking with him a certificate of deposit from the County Bank, of $189,70, and a small amount of money besides. He received about $400 in Kenosha, and the supposition is that he left there on the evening train for this place, and, by being asleep, or through negligence, failed to get off at the depot and jumped off where he was found. He lay there nearly two hours before he was moved, although it is said he was seen to jump, and a number of men were about him.—One, whose name we cannot ascertain, made himself particularly active in rubbing him, and was detected inserting his hands in the injured man's pocket, when a party of Irishmen, who were coming home from work, upon the track, and stopped to see the body, ordered him to desist, took the money, in order as they said, to keep it safe, and left! After he had been brought to town, a search warrant was issued by Justice Hinds, and $446,76 of the money was recovered, being all, they assert, taken by them.

There has been many different surmises in regard to the affair, some thinking that he was knocked down or pushed off the cars, while others regard the occurrence as purely accidental. A person—the same who was first seen near the body—was arrested on suspicion last evening. The persons who took the money, claim that they rendered a true account of it, giving up all they got, yet there appears to be nearly $200 missing. They exhibited an entire want of sympathy in leaving the sufferer without caring for him, as they did.

A coroner's inquest is being held, and we hope every effort will be made to probe the mystery thoroughly.—*Racine News.*

WEATHER, CROPS, &c.—For the past week we have had much less rain than any of the three preceding weeks. Farmers will soon bring their harvest labors to a close and though much extra labor has been required their crops will be secured in tolerable condition. Tremendous heavy rains have fallen on the Upper Mississippi and Minnesota, and the water, in both the river and the Lake at this place, is now full six feet above the usual stage at this season of the year. The whole season has been one of unprecedented advantage to navigation. No sticking on sand bars, no propelling by spars and capstain; but boats have run with uninterrupted, ease and facility.—*Prescott Transcript, Aug. 21.*

☞ The Texas Penitentiary seems to be doing a good business. From October, 1857, to June, 1858, the value of the cotton manufactures at the Penitentiary was $71,823, and of the woolen $33,148.

From the N. Y. Tribune, Aug. 10.

A Mysterious Disappearance.

One of those painful and mysterious incidents which occasionally occur in large cities, and by comparison make fiction tame, occurred here about a month since, and as yet the strictest scrutiny and the most anxious search, excited by the hope of reward on one hand, and impelled on the other by the warmest family affection, have been unable to lay hold upon the slightest clue to its solution. The case has been referred to in one or two of our morning contemporaries, but with a want of careful detail, and an absence of names which fail to attract to it that attention which might possibly lead to some discovery, a hope for which alone can render to those concerned a publication of the facts at all desirable. We will supply this omission in the hope that through such means the cause of public safety may be served, and some aid be rendered to a bereaved family, who now mourn for one lost as without hope.

Many of our readers will probably remember Col. Crane of the United States Army, who, two or three years since, was in command at the garrison at Old Point Comfort, in Virginia, where his health, undermined by previous severe service in Mexico and elsewhere, gave way, and compelled him to seek retirement and rest. He came to the North, and went to reside with a son at Staten Island, where he soon after, about two years since, died. With this son he left a widow and a daughter, the latter the wife of Captain Brennan of the United States Army, now stationed at Key West. Mrs. Brennan has one young child, who resided with her at her brother's at Staten Island.

On the 20th day July Mrs. Crane, with her son and daughter, Mrs. Brennan, came to town, and when they parted to go upon their several errands or visits, it was understood that they would meet again on the boat at 4 o'clock. The mother and son were punctual to the appointment, but the daughter was not. The two former returned to the Island, not doubting, of course, that the third, Mrs. Brennan, was accidentally left behind, or necessarily delayed by some engagement, and that she would take the next boat at 5½ o'clock; but that boat arrived at the Island without her; nor did she appear to her now watchful friends when the last boat by which she could reach home on that day arrived, at 8 o'clock.

So unaccountable an absence naturally created some anxiety, and that anxiety grew into alarm, and then into despair, when they learned, the next day, that she had actually left the house of a friend the afternoon before to go to the four o'clock boat, that she was afterwards seen in Broadway, apparently on her way to the boat of 5½ o'clock, since which time the most diligent search by her friends and by the police has completely failed to discover the slightest trace of her. It is useless to suggest any of the many causes which may have induced her to disappear, or compelled her disappearance, so utterly and without leaving a sign behind her; on this point the imagination may be left unaided. But this only should only be said—that there is nothing, we are assured, in the relations of Mrs. Brennan to her family or her friends, nothing in her worldly circumstances, nothing in her character, nothing in her state of mind or state of health, that admits for a moment the possibility of a secret departure or prolonged absence to be voluntary acts on her part.

She was happy in a retired and pleasant home, when an aged mother and young child required her constant and affectionate care, and the unvarying cheerfulness and untiring devotion which she gave to these daily duties, forbid the supposition that she could have conscientiously and deliberately abandoned them. We are left, then, to the wildest conjecture as to what can have happened to a lady unassuming, modest, and in the sad and sober garb of mourning-weeds, but not unattractive, and in the prime of womanhood, on so public a thoroughfare as Broadway, in the broad daylight of a summer afternoon.—We doubt if the police of London or Paris would have let such a question be unsolved for thirty days.

A SWIMMING MATCH.—That even so mean a business as that of "Peeping Tom" may turn out happily, the following, from the Pittsburgh *Dispatch*, proves:

At Murdocksville, some young ladies had selected a shady nook and were enjoying a river bath, when two young fellows, strolling in the woods, heard an unusual splashing in the water, and, "following their ears," were amazed and—shall we say it?—delighted, on turning a sharp bend in the river, to behold the water nymphs floating in the rippling current, fairer than the naiads and more enchanting than sirens. Concealing themselves, one of the rascals wagered $50 on the swimming powers of a flaxen-haired divinity against a small dark-eyed beauty—the two being the leaders of the party, and the most expert swimmers. The wager was accepted, the two had struck out for a long swim, a strong swim, and a swim altogether, when the "fair haired she" shrieked, "A turtle! a turtle!" and terribly frightened, sank under the surface.

It was a struggle between gallantry and duty with the young men; but the one who had accepted the challenge leaped from his hiding place into the stream, and striking out boldly, succeeded in seizing the insensible and drowning girl, and dragged her to the shore. Of course the remainder of the party had fled, but soon returned, took charge of the nearly inanimate form, and restored her to consciousness.—In consideration of the service performed, the young fellows were granted absolution. The heroic rescuer of the young lady, however, claimed the $50, on the score that his nymph had fairly won the match. If it is not dusted up the young men propose that the ladies shall try again.

CURIOUS PHENOMENON.—A curious phenomenon was witnessed in this city, on Washington avenue, at about 2 o'clock P. M. A small whirlwind formed just on the brow of the hill, a little above the residence of Dr. Bowen, in the centre of the street, and continued dancing about, "now advancing, now retreating" for not less than ten or fifteen minutes. During all this time, it kept on a space of ground not more than four or five rods square, gracefully waltzing about, and sent up a spiral column of dust to an immense height in the air. People at a distance mistook it for a fire. Boys and men collected around it, and amused themselves by running through it, or throwing their hats into it, and seeing them carried up fifty or a hundred feet, when they would drop in nearly the same point where they started. At the base, this curious whirl of air was not much larger than a man's body, but rapidly enlarged as it extended upward. A large concourse of spectators was rapidly gathered around, when, apparently grown tipsy by its rapid gyrations, it suddenly reeled forward and struck the corner of the Dane County Store. Recoiling, after one or two feeble efforts to recuperate, the "insubstantial pageant failed" and collapsed.

There was a light wind from the east at the time. The sun was shining, and the sky full of cumbrous masses of cloud.—*Madison Journal, Monday.*

EYE AND EAR INFIRMARY!
MEIGS CASE, M. D.,
OPERATOR UPON THE EYE & EAR.

LECTURES ON THE EYE.

STRABISMUS, or Cross Eye, may be defined to be a want of harmony between the two eyes, which exists to such an extent that one of them does not move with the other, but is turned away involuntarily to the other side.

It is an affection so apparent as scarcely to require explanation, and is a most unpleasant defect, particularly to young people, and never fails to impair the sight more or less.

It consists essentially of a contraction of one of the six muscles which fix the ball as represented in the cut.

The operation is usually performed by me, in a few seconds, and is always entirely successful, both in relieving the deformity and improving the vision to a great degree.

Operations for Cataract, artificial pupil, &c., scientifically and successfully performed.

French artificial eyes inserted without operation or pain, having the appearance and all the motions of the natural eye.

All the recent discoveries and improvements in the diagnosis and treatment of ocular and aural diseases, will be resorted to for the restoration and preservation of the most valuable of the senses, *sight* and hearing.

Persons from a distance will be provided with boarding houses by making application at the office immediately on arriving in the City.

Operations, medicines and advice gratuitously given to persons who are really indigent, during the unoccupied moments of the operator.

City Auction Room.
I WOULD call the attention of the Ladies generally, to the fact that I have a large collection of various kinds of Dry Goods, which I am selling at half-price. I am anxious to sell off the goods and will continue thirty days longer. I sell them at private sale at retail, and invite you all to call and see if there is not some Goods you want. Those Bonnets I have said so much about are not all gone, I mean those Ten Cent Bonnets, which I am now selling for Five Cents. I also will make presents of them to any one who can use them. They make very good Shaker Bonnets to run into the garden. Well, I can say no more at present, but will in the course of few days write another new advertisement of a great grand Furniture sale which will come off shortly. jy19 CALEB WALL.

Private and Confidential Medical Advice,
AT the MILWAUKEE VENERIAN HOSPITAL, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr. BARNES.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain the head or bones, and all Mercurial Affections, and all impurities of the blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charges for short consultations.—Those requiring much advice should enclose a small fee, sufficient to compensate for the time required to write the answer.

THE GUIDING HAND.

"Cast thy burden upon the Lord."—Psalm lv, 22

Is this the way, my Father? 'Tis, my child.
Thou must pass through the tangled, dreary wild
If thou wouldst reach the city undefiled,
Thy peaceful home above.

But enemies are round! Yes, child, I know
That where thou least expectest, thou'lt find a foe;
But victor thou shalt prove o'er all below,
Only seek strength above.

My Father it is dark! Child, take my hand,
Cling close to me, I'll lead thee through the land;
Trust my all-seeing care; so shalt thou stand
'Midst glory bright above.

My footsteps seem to slide! Child, only raise
Thine eye to me, then, in these slippery ways
I will hold up thy goings; thou shalt praise
Me for each step, above.

Oh, Father, I'm weary! Child, lean thy head
Upon my breast. It was my love that spread
Thy rugged path; hope on, till I have said,
"Rest, rest, for aye, above."

From the London Times, Aug. 6.

The Cable in England.

By a chain of electric communication extending from Trinity Bay, Newfoundland, to this metropolis, we are informed that the last attempt to lay the Atlantic Telegraph has succeeded, and that the Old and New Worlds are actually linked together by the magnetic wire. The intelligence is so much the more gratifying as we have been led, in common with the rest of the public—and surely not without very plausible reason—to something like despair, not indeed of the ultimate success of the undertaking, but of its success with the existing machinery and under conditions apparently so unfavorable. It was not unnatural to apprehend that a cable which had parted at the bottom of the sea, and again within a few feet of the stern of the vessel that was paying it out, would never be stretched in safety across the Atlantic. But the feat has been accomplished, and the relish of the surprise is only the greater from previous disappointment and uncertainty. Although the weather was unfavorable, the cable seems to have been paid out with the greatest regularity, the quantity of cable discharged from the two ships being the same every day within ten miles.—On the first two days the amount paid out by each ship was about 180 nautical miles, or at the rate of between five and six miles an hour. On the 1st of August each ship paid out 170 nautical miles, or at the rate of seven nautical miles an hour. On the second this rate was increased to seven nautical miles and five-eighths, so that the result seems to show that a greater speed can be attained with safety than had been calculated on. We are told that there are good signals between the ships, but of course we wait with much anxiety more precise information as to the rapidity of communication that has been maintained.

We sincerely congratulate the promoters of this great enterprise upon the triumphant success by which, after so many delays and disappointments, they have been rewarded. It is difficult so suddenly to realize the event which has just taken place; the accomplishment of this mighty feat comes upon us not in the gradual and tentative manner in which most scientific exploits have been performed, but with the rapidity worthy of the agent which it employs.—The steam engine, the other great discovery of our time, has been perfected little by little, and no one can exactly say when it was that each of the triumphs which it has successively achieved became possible. Practice was so far ahead of theory that high scientific authorities argued strongly against the possibility of results, and were not refuted by counter arguments, but by the accomplishment of those very results the possibility of which they had denied. With the Atlantic Telegraph it has been just the contrary. Theory had shown the practicability of the line, but practice lagged infinitely behind it. Instead of proceeding by slow degrees, the projectors have leaped at once to a gigantic success. We believe that we are correct in stating that 500 miles of telegraph have never before been successfully laid under water, and yesterday we received intelligence that a communication is fully established beneath 2,000 miles of stormy ocean, under a superincumbent mass of water the depth of which may be counted in miles. Only now, when it has succeeded, are we able to realize the magnitude and the hardihood of the enterprise. Over what jagged mountain ranges is that slender thread folded; in what deep and oceanic valleys does it rest, when the flash which carries the thought of man from one continent to another darts along the wire; through what strange and unknown regions, among things that are uncouth and wild, must it thread its way! It brings us up tidings from the vast abyss, but not of the abyss itself, but of men like ourselves who dwell beyond.

Since the discovery of Columbus nothing has been done in any degree comparable to the vast enlargement which has thus been given to the sphere of human activity. We may, now that this most difficult problem of all has been solved, be justified in anticipating that there is no portion of earth's surface which may not be placed in immediate communication with us. We know that we have in our hands the means of a practical ubiquity. Distance as a ground of uncertainty will be eliminated from the calculation of the statesman and the merchant. It is no violent presumption to suppose that within a very short period we shall be able to present to our readers every morning, intelligence of what happened the day before in every quarter of the globe.—The Admiralty will know to within a few miles the position of every ship in her Majesty's service. The intelligence of a Caffre war, or an Indian mutiny, will reach us before the first blood that has been shed is cold, and we shall be able to economize the whole time consumed by the ordinary vehicles of intelligence. We see, with not unnatural satisfaction, that the advantage of the discovery will be the greatest to those countries the possessions of which are the most remote, and therefore that England has more to gain than any of her rivals. More was done yesterday for the consolidation of our Empire than the wisdom of our statesmen, the liberality of our Legislature, or the loyalty of our colonists could ever have effected. Distance between Canada and England is annihilated. For the purposes of mutual communication and of good understanding the Atlantic is dried up, and we become in reality as well as in wish one country. Nor can any one regard with indifference the position in which the Atlantic Telegraph has placed us in regard to the great American Republic. It has half undone the Declaration of 1776, and gone far to make us once again, in spite of ourselves, one people. To the ties of a common blood, language and religion, to the legitimate association in business and a complete sympathy on so many subjects, is now added the faculty of instantaneous communication, which must give to all these tendencies to unity an intensity which they never before could possess.

We are most happy that it has fallen to the lot of this country to carry out an enterprise in which human nature is so deeply interested, in concert with the only other nation on the globe in which the flame of Science is fanned and kept alive by the breath of freedom. Let those who are assembled at Cherbourg to celebrate another development in the art of destruction, and to *fete* the inauguration of a fortress avowedly designed to threaten the independence and prosperity of these Islands, reflect on the true nature of the enterprise which has thus been executed, and turn from the contemplation of Science degraded in the handmaid of slaughter and devastation to Science applied to her legitimate office, as the conciliator, the benefactress and enlightener of the whole human race. A military Monarchy has created Cherbourg; political freedom and commercial enterprise have made the Atlantic Telegraph, and they have nothing to blush for in the comparison.

From the Times (City Article.)

The Atlantic Telegraph shares of £1,000 each, which were yesterday offered at £340, immediately advanced this morning, on receipt of the telegram of success, to a nominal quotation of £600 to £800. Later in the day it was found that holders were extremely firm, and the final price was £880 to £920. The first through message from New York is now awaited with the utmost interest, and most persons connected with the American trade are sanguine of the permanent impulse it will give to the commercial intercourse of the two countries, and the economy it will also effect by frequently preventing the profitless shipment backward and forward of goods or specie.

G. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.
THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.
The Ohio Catawba Brandy, not only equals but excels the best Imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.
The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for
Dyspepsia, Flatulency, Cramp, Colic Languor, Low Spirits, General Debility, &c.
NO FAMILY SHOULD BE WITHOUT IT.
RETAIL PRICE $1,25 PER BOTTLE.
Recommended by the physicians and druggists of the United States.

WEST WATER STREET, MILWAUKEE.
THE OLDEST ESTABLISHMENT IN THE CITY
TURTON & SERCOMB,
MANUFACTURERS of Steam Engines and Boilers, Flour and Saw Mill Gearing, Brass and Composition work, together with Castings of all descriptions.
Also manufacturers of the celebrated Haviland & Tuttle Patent Centre-Vent Water Wheel. It uses less water, in proportion to the power given, than any other wheel manufactured. It is adapted to either high or low heads of water, runs perfectly steady, and is not affected by ice or back-water, only in the loss of head. In addition to this, it can be sett with but little delay, and at no greater expense than ordinary wheels. It has given general satisfaction to all who have used it, and that, together with its durability, having been used in Messrs. Ludington & Co's Mill over seven years, without one dollar expense, gives it an entire superiority over all other wheels. Descriptive circulars forwarded on application.
Mill Stones, Bolting Cloth, Seive Wire, and Mill furnishings, of all descriptions, at the shortest notice.
We have always on hand a large supply of Turton & Son's celebrated Files.
Also, Steam and Water Cocks, Steam Guages and Whistles, Oil Pumps and Cups, Lignum Vitae of all sizes.

Risks accepted at terms consistent with solvency and fair profit.
Especial attention given to insurance of DWELLINGS and Contents, for terms of 1 to 5 years.
The progress of this Corporation has been stable and uninterrupted through seasons of financial sunshine and storm, or periods eventful in or exempt from sweeping conflagrations and maritime disaster. Being long established on a cash basis, the troubles of the credit system affect us in no material particular.
During "hard times" the security of reliable Insurance is an imperative duty—the ability of property owners to sustain loss being then much lessened.

REAL ESTATE,
Office, No. 1 Kneeland's Block.

CITY LOTS. LOTS. LOTS. LOTS. LOTS. PALMER & CO'S Addition. No. 21. One mile and a half from the Spring Street Bridge.	We have laid off the balance of our original purchase on Spring street into lots, and now offer them on the same terms as heretofore, viz: *On each hundred dollars of purchase money five dollars in advance, and three dollars per month thereon, until paid WITHOUT INTEREST.* The lots are beautifully situated on high ground in a healthful locality, and embraces some of the finest views about the city. They will bear examination.

The very low price at which they will be sold, together with the terms, commend them to the attention of all classes who desire a home and exemption from rents.—Young men, mechanics and laboring men, and tradesmen of small means have here an opportunity to invest that is within their reach. We have an agent on the property every day, after 2 P. M., to show the lots.

GRAIN CLEANER & SEPARATOR
HORTON'S PATENT
G. B. BINGHAM & BRO.,
Sole Manufacturers in Wisconsin.
THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, Florida st., Milwaukee, Wis. feb20f976d1y

The general decline in the East on wheat has had a depressing effect upon our market, and we note a decline of 5a10c on Spring wheat to-day, with very light transactions, holders in many instances asking yesterday's figures. Private despatches from Chicago, received about noon, stated that wheat had declined 10c in that market and was tending downwards. We have heard of no sales of spring wheat to-day outside of $1, and $1,05 were the outside figures offered for the best milling samples. The telegraph this evening quotes wheat 1a2c lower in the N. Y. market, but reports sales of Milwaukee club at as high figures as it has yet reached in that market. Oats continue firm at 44a46c, and in other grain there is no change to note. We quote to-day:

Wheat—Market inactive, and spring 5a10c lower. We note sales of 1,450 bus extra club at $1, 275 bus inferior red winter at $1,06, and 475 bus white do at $1,25.

Flour—Quiet and unchanged. Spring extra quoted at $5,50.

Oats—Firm at 45a46c.

Corn—In demand at 64a66c.

Barley—50a60c.

Rye—Scarce at 50a60c.

Potatoes—Heavy at 25c.

Eggs—Dull at 8a10c.

Butter—Firkin nominal at 10a11c, fresh roll scarce at 12½a15c.

Hides—Wanted at 6c for green, 7c for do salted, and 12½a14½c for dry.

Wool—Quiet at 25a35c.

CHICAGO MARKET.

Chicago, August 24.

Breadstuffs are dull and declining. Opening at 95 for No. 2, new receipts spring, before the close it had fallen to 93c with a proportionate decline on all qualities.

Corn is very stagnant, with a decline to 65c for No 1 Railroad; large receipts are pressing on the market.

Oats were a little more active and prices remained unchanged; as does, also, Flour.

Wheat—Sales are of Winter, 1,800 bu white at $1,25, 1,000 bu No 1 red at $1,25, 2,000 bu No 2 do at 1,10 and 2 cars of the same at 1,05; of spring No 2 new receipts 1,500, 2,500, 3,000, 1,000, 850 and 13,500 bu at 95c, 1,000 bu at 94c, 1,500 bu and 2 cars at 93c all in store, and 2,000 bu Canal at 91c afloat; old receipts 700 bu at 85c, and 1,000 bu at 87½c; of rejected 2 cars at 80c and 7 cars at 75c all in store.

Oats—Sales are 9,000 bu at 51c f. o. b; 1 car at 48½c in store, and 1 car at 50c on track to distillers.

Flour—Sales are 100 bbls O coit's white winter at 6,25, 90 bbls Como, and 150 bbls West Aurora, Arcadia and Swan at 5 00 all delivered.—*Chicago Journal, of last evening.*

NEW YORK MARKET.

New York, Aug. 24.

Flour—Less doing, and market for common to medium grades 5a10c lower; sales 10,400 bbls at 4 10a4 25 for unsound super state; 4 40a4 50 unsound extra state; super state scarce; no sound in market; a parcel of 500 bbls very choice sold at 5 50; super western 4 70a4 90; com to medium extra do 5 20a6 10; 6a6 15 shipping brands extra round hoop Ohio, market tending downward. Rye flour steady; sales of small parcels at 3 50a4 40. Sales of 600 bbls Canadian flour at 5 4 a5 40.

Wheat—Market heavy and 1a3c lower; sales 40,000 bu at 1 05 unsound Mil club; 1 35 white Ky; 1 32 for good white Mich; 1 32½ do Canadian.

Rye—Dull and nominal at 78a80.

Corn—Dull, and prices rather easier; sales 800 bus at 73a56 for inferior to good mixed western.

Oats—A shade firmer; 47a52½ for state and western.

INSTRUCTION.

SALOM'S
Wisconsin State
Mercantile College
Juneau Block, Milwaukee
A COMPLETE BOOK-KEEPER'S EDUCATION for twenty-five dollars.
Life Scholarships will be issued for the above nominal sum *for a few weeks only,* in order that many now out of employment may prepare themselves for THE GOOD TIME COMING. The mercantile course is advisedly estimated as the most extensive, thorough, *practical* and *modern* to be found, and every precaution has been taken, that, for the acquisition of a business education complete to the most minute particular, it shall, as heretofore, have *absolutely no equal.*
The student conducts, in the most approved style, the following business books, which with their corresponding transactions were modelled at great expense for this College only by eminent bookkeepers actually engaged in the various departments represented, viz: Railroad, (operative and constructive), Bank, Hotel, Lumber, Compound Co. Adventure, Jobbing, Importing, Exporting, Forwarding, Express, Commission, Mill, Steamboat, Warehouse, Publishing, Printing, Auction, Insurance, Administrator, Professional, Wholesale, Retail, Individual, Partnership, &c. He is thoroughly drilled in every kind of calculations, documents, and correspondence that can possibly occur in business, and will receive instruction in Mercantile Grammar, Geography, and Law, the Art of presiding over Public Meetings, &c.
Civil Engineering and Surveying complete........ $40
Graduates Assisted to Situations.
N. B.—No one desirous of investing his time and money to the best possible advantage in taking a commercial course, must omit applying for a catalogue, which will be sent free by the President.
IMPORTANT CAUTION.—Strangers will be under the necessity of carefully noting the title of this College and following the sign boards erected for their guidance in the College Building, as another teacher has represented his school as "Salom's College."

AYER'S CATHARTIC PILLS.
THE sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to their whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill.—While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow men.
The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints.
Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for Ayer's Pills and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

NOTICE.

Concerning Lands Sold for Taxes for the year 1855.

ALL persons interested are hereby notified that the following tracts and lots of land remain unredeemed in the office of the Clerk of the Board of Supervisors, of the County of Milwaukee, and State of Wisconsin, for the taxes due and unpaid on the same, for the year eighteen hundred and fifty-five, and opposite the description of each tract or lot, or part thereof, in the following list, is the name of the person, if any, to whom it is assessed, and the amount of tax, charges and interest, calculated to the last day of redemption, due on each.

Now therefore, unless such lands be redeemed, on or before the 5th day of April, one thousand eight hundred and fifty nine, in pursuance of the Statute in such case made and provided, the same will be forfeited for such taxes and charges, and will be conveyed to the purchaser.

Lands sold for taxes due, and returned to this office as delinquent, for the year 1855—sold April 9th, A. D. 1856;

Uncle Sam spoke: "There shall be light!" and there was light!
Lewis Drucker spoke: "There shall be night—then come the guests and all is right!"
On every day—in every night,
Until the sun comes pure and bright,
Shall be a concert mild and sweet,
And each one have the loveliest treat;
There Humor flows in fullest stream,
There sparkling wit words the brightest beam
